West Virginia			*	No requirement for formal education
Wisconsin			*	No requirement for formal education
Wyoming			*	No requirement for formal education

**General/Additional Comments:**

Medical assistants are not required by law to hold licensure or certification. With the exception of North Carolina, the above indicated eight states require the completion of some sort of medical assisting education program to work as a medical assistant or to be delegated certain tasks while working as a medical assistant. As a result, the NCC Medical Assisting program, because of its CAAHEP-accreditation, meets the requirements of these states.
