General/Additional Comments:
PTCB Certification is accepted in all 50 states, the District of Columbia, Guam, and Puerto Rico. PTCB Certified Pharmacy Technicians (CPhTs) work across the US in a wide range of pharmacy practice settings.

Regulations and requirements for certification, licensure, registration and relicensure vary by state and change on an undefined schedule. Some states have no requirement for technicians to register with the State Board of Pharmacy, while other states have rigorous requirements related to formal education/training, practical experience, and national certification.
